

<p>1</p>  <p>Material Supply is a free-to-use online platform that makes it easy for your team to buy,</p>	<p>The first scene is made as Monday, but in their colors and with their elements</p>
<p>2</p>  <p>Quote and manage your industrial materials at pricing up to 20% lower than traditional wholesalers.</p>	<p>Display the management of materials in an abstract form, as in the Monday, and then translate these forms into an interface.</p>
<p>3</p>  <p>To get started, select a quote or project, and enter the desired specifications.</p>	<p>Visualize the interface as in Monday Video; you may mix text, design, and forms with it.</p>
<p>4</p>  <p>Search for your materials using our search bar and industry-specific filters.</p>	<p>Visualize the interface as Monday; you may mix text, design, and forms with it.</p>
<p>5</p>  <p>By default, Material Supply shows you only the materials that are approved for your specifications.</p>	<p>Visualize the interface as Monday; you may mix text, design, and forms with it.</p>
<p>6</p>  <p>Add the materials and quantities you need.</p>	<p>We can see the interface as in Monday video, and we can merge text, design, and forms with it. In certain scenes, similar transitions may be used.</p>
<p>7</p>  <p>We also let you review alternative products that meet specifications so that you're getting the best prices and lead times.</p>	<p>Visualize the interface as in Monday video, you can combine it with text, design, shapes</p>
<p>8</p>  <p>Coordinate your delivery by assigning your materials to one or more shipments. Specify which freight carrier to use, or let our automated system choose the best price on shipping options.</p>	<p>Visualize the interface as in Monday video, you can combine it with text, design, shapes</p>
<p>9</p>  <p>Need to edit your shipments? No problem. With Material Supply, you can continually modify your shipments to account for changes to your project.</p>	<p>You can use a text with additional elements</p>
<p>10</p>  <p>Material Supply is a collaborative tool that allows team members to work jointly on projects, share information with their organization and communicate with other members working on the project.</p>	<p>This is the arrangement of the windows according to the degree to which the announcer reads them out.</p>
